

# SAFETY DATA SHEET DEMON SHINE TRIGGER

SECTION 1: Identification of t	he substance/mixture and of the company/undertaking	
1.1. Product identifier		
Product name	DEMON SHINE TRIGGER	
Product number	CDS101, CDS102	
1.2. Relevant identified uses of	of the substance or mixture and uses advised against	
Identified uses	Polish.	
1.3. Details of the supplier of t	the safety data sheet	
Supplier Manufacturer	TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 797 5899 info@tetrosyl.com TETROSYL LIMITED Bury Lancashire England BL9 7NY 0161 764 5981 0161 777 5899 info@tetrosyl.com	
1.4. Emergency telephone nu		
Emergency telephone	+44 (0)161 764 5981	
SECTION 2: Hazards identification		
2.1. Classification of the subs	tance or mixture	
Classification (EC 1272/2008)		
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
Human health 2.2. Label elements	See Section 11 for additional information on health hazards.	
Hazard statements	NC Not Classified	
Precautionary statements	P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children.	

# 2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

inhalation         Get medical attention if any discomfort continues.           Ingestion         Consult a physician for specific advice.           Skin contact         Remove contaminated clothing immediately and wash skin with soap and water.           Eye contact         Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Do not rub eye.           4.2. Most important symptoms and effects, both acute and delayed         General information           General information         The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.           Inhalation         No specific symptoms known.           Ingestion         May cause discomfort if swallowed. May cause stomach pain or vomiting.           Skin contact         Prolonged contact may cause redness, irritation and dry skin.           Eye contact         May cause temporary eye irritation.           4.3. Indication of any immediately attention and special treatment needed         Notes for the doctor           Nos specific recommendations. If in doubt, get medical attention promptily.         Section 5. Firefighting media           Stable extinguishing media         Use fire-extinguishing media suitable for the surrounding fire.           Unsuitable extinguishing media         Use fire-extinguishing media suitable for the surrounding fire.           Unsuit		any substances classified as FDT of VFVD.
Composition comments         None of the ingredients are required to be listed.           SECTION 4: First aid measures           General Information         Remove affected person from source of contamination. Get medical attention if any discomfort continues.           Inhalation         Get medical attention if any discomfort continues.           Ingestion         Consult a physician for specific advice.           Skin contact         Remove affected person from source of contaminated and wash skin with soap and water.           Eye contact         Rines immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Do not rub eye.           4.1 Most important symptoms and effects, both acute and delayed         General information           General information         The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Effects may be delayed. Keep affected person under observation.           Inhalation         No specific symptoms known.           Indegstion         May cause desconfort if swallowed. May cause stomach pain or vomiting.           Skin contact         Prolonged contact may cause redness, irritation and dry skin.           Eye contact         May cause temporary eye irritation.           4.3. Indication of any immediate medical attention and special treatment needed         Notes for the doctor           No specific recommendations. If in doubt, get medical attention promptly. Notes for the doctor	No specific recommendations. If in doubt, get medical attention promptly.
Suitable extinguishing media       Use fire-extinguishing media suitable for the surrounding fire.         Unsuitable extinguishing media       Do not use water jet as an extinguisher, as this will spread the fire.         5.2. Special hazards arising from the substance or mixture         Specific hazards       Not relevant. No unusual fire or explosion hazards noted.         Hazardous combustion products       No known hazardous decomposition products.         5.3. Advice for firefighters       No specific firefighting precautions known.         firefighting       Special protective equipment         Leave danger zone immediately.       Leave danger zone immediately.	SECTION 5: Firefighting meas	ures
Unsuitable extinguishing mediaDo not use water jet as an extinguisher, as this will spread the fire.5.2. Special hazards arising from the substance or mixtureSpecific hazardsNot relevant. No unusual fire or explosion hazards noted.Hazardous combustion productsNo known hazardous decomposition products.5.3. Advice for firefighters firefightingNo specific firefighting precautions known.Special protective equipment for firefightersLeave danger zone immediately.	5.1. Extinguishing media	
media         5.2. Special hazards arising from the substance or mixture         Specific hazards       Not relevant. No unusual fire or explosion hazards noted.         Hazardous combustion products       No known hazardous decomposition products.         products       5.3. Advice for firefighters         Protective actions during firefighting       No specific firefighting precautions known.         Special protective equipment for firefighters       Leave danger zone immediately.	Suitable extinguishing media	Use fire-extinguishing media suitable for the surrounding fire.
Specific hazards       Not relevant. No unusual fire or explosion hazards noted.         Hazardous combustion products       No known hazardous decomposition products.         5.3. Advice for firefighters       Protective actions during firefighting precautions known.         Special protective equipment for firefighters       Leave danger zone immediately.	• •	Do not use water jet as an extinguisher, as this will spread the fire.
Hazardous combustion products       No known hazardous decomposition products.         5.3. Advice for firefighters       Protective actions during firefighting         Protective actions during firefighters       No specific firefighting precautions known.         Special protective equipment for firefighters       Leave danger zone immediately.	5.2. Special hazards arising fro	om the substance or mixture
products         5.3. Advice for firefighters         Protective actions during firefighting         No specific firefighting precautions known.         Special protective equipment for firefighters	Specific hazards	Not relevant. No unusual fire or explosion hazards noted.
Protective actions during       No specific firefighting precautions known.         firefighting       Special protective equipment       Leave danger zone immediately.         for firefighters       Leave danger zone immediately.       Leave danger zone immediately.		No known hazardous decomposition products.
firefighting Special protective equipment Leave danger zone immediately. for firefighters	5.3. Advice for firefighters	
for firefighters	-	No specific firefighting precautions known.
SECTION 6: Accidental release measures	Special protective equipment for firefighters	Leave danger zone immediately.
	SECTION 6: Accidental releas	e measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

	Stective equipment and emergency procedures	
Personal precautions	For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.	
6.2. Environmental precaution	<u>15</u>	
Environmental precautions	Collect and dispose of spillage as indicated in Section 13.	
6.3. Methods and material for	containment and cleaning up	
Methods for cleaning up	For waste disposal, see Section 13. Wear protective clothing as described in Section 8 of this safety data sheet. Provide adequate ventilation. Contain spillage with sand, earth or other suitable non-combustible material. Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb spillage with non-combustible, absorbent material.	
6.4. Reference to other sections		
Reference to other sections	Collect and dispose of spillage as indicated in Section 13. For personal protection, see Section 8.	
SECTION 7: Handling and sto	prage	
7.1. Precautions for safe hand	dling	
Usage precautions	Read and follow manufacturer's recommendations. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Avoid contact with eyes. Avoid eating, drinking and smoking when using the product.	
7.2. Conditions for safe storage	ge, including any incompatibilities	
Storage precautions	Keep containers upright. Store in tightly-closed, original container.	
7.3. Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.	
SECTION 8: Exposure Controls/personal protection		
8.1. Control parameters		
Occupational exposure limits		

Occupational exposure limits

No exposure limits known for ingredient(s).

## ETHYL ACETATE

Long-term exposure limit (8-hour TWA): WEL 200 ppm Short-term exposure limit (15-minute): WEL 400 ppm WEL = Workplace Exposure Limit

#### 8.2. Exposure controls

#### **Protective equipment**

Appropriate engineering controls

Eye/face protection

No specific ventilation requirements. This product must not be handled in a confined space without adequate ventilation.

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses.

Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination.
Hygiene measures	Use engineering controls to reduce air contamination to permissible exposure level.
Respiratory protection	Respiratory protection not required.
SECTION 9: Physical and Chemical Properties	

9.1. Information on basic phys	sical and chemical properties	
Appearance	Clear liquid.	
Colour	Pink.	
Odour	Characteristic.	
Odour threshold	Not determined. Scientifically unjustified. Not determined. Scientifically unjustified.	
рН	pH (concentrated solution): 5.0 - 8.0	
Melting point	Not determined. Scientifically unjustified.	
Initial boiling point and range	100°C @	
Flash point	>100°C	
Evaporation rate	Not determined. Scientifically unjustified.	
Upper/lower flammability or explosive limits	Scientifically unjustified. Not determined.	
Vapour pressure	Not determined.	
Vapour density	Not determined.	
Relative density	0.995 - 1.005 @ °C	
Solubility(ies)	Miscible with water.	
Partition coefficient	Not determined. Scientifically unjustified.	
Auto-ignition temperature	Not determined. Scientifically unjustified.	
Decomposition Temperature	Not determined. Scientifically unjustified.	
Viscosity	0.70 cSt @ 40°C	
Oxidising properties	Not determined.	
9.2. Other information		
Other information	None.	
SECTION 10: Stability and rea	activity	
10.1. Reactivity		
Reactivity	There are no known reactivity hazards associated with this product.	
10.2. Chemical stability		
Stability	No particular stability concerns.	

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions	Not applicable.	
10.4. Conditions to avoid		
Conditions to avoid	Avoid excessive heat for prolonged periods of time.	
10.5. Incompatible materials		
Materials to avoid	No specific material or group of materials is likely to react with the product to produce a hazardous situation.	
10.6. Hazardous decomposition	on products	
Hazardous decomposition products	Does not decompose when used and stored as recommended.	
SECTION 11: Toxicological in	formation	
11.1. Information on toxicologi	ical effects	
Toxicological effects	No information available.	
Acute and chronic health hazards	Because of the product's quantity and composition, the health hazard is regarded as low.	
SECTION 12: Ecological Infor	mation	
Ecotoxicity	The product components are not classified as environmentally hazardous. However, large or frequent spills may have hazardous effects on the environment.	
12.1. Toxicity		
Acute toxicity - fish	Not determined.	
Acute toxicity - aquatic invertebrates	Not determined.	
Acute toxicity - aquatic plants	Not determined.	
12.2. Persistence and degrada	ability	
Persistence and degradability	The product is more than 80% biodegradable.	
12.3. Bioaccumulative potentia		
Bioaccumulative potential	No data available on bioaccumulation.	
Partition coefficient	Not determined. Scientifically unjustified.	
12.4. Mobility in soil		
Mobility	The product is soluble in water.	
Adsorption/desorption coefficient	Not available.	
12.5. Results of PBT and vPvB assessment		
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current EU criteria.	
12.6. Other adverse effects		
Other adverse effects	Not available.	

## SECTION 13: Disposal considerations

13.1. Waste treatment me	thods
General information	When handling waste, the safety precautions applying to handling of the product should be considered.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Absorb in vermiculite, dry sand or earth and place into containers. Dispose of waste via a licensed waste disposal contractor.

# SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

#### 14.1. UN number

Not applicable.

# 14.2. UN proper shipping name

Not applicable.

#### 14.3. Transport hazard class(es)

No transport warning sign required.

## 14.4. Packing group

Not applicable.

## 14.5. Environmental hazards

# Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Not applicable.

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

# Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

## SECTION 15: Regulatory information

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations	The Control of Substances Hazardous to Health Regulations 2002 (SI 2002 No. 2677) (as amended).
EU legislation	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).

### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information	
General information	Only trained personnel should use this material.

**Revision comments** NOTE: Lines within the margin indicate significant changes from the previous revision.

Revision date	15/12/2016
Revision	7
Supersedes date	12/04/2016
SDS status	Approved.

The information provided in this document has been compiled on the basis of our current knowledge and is believed to be in accordance with the requirements of the Dangerous Substances Directive, Dangerous Preparations Directive and Safety Data Sheets Directive. The information relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any particular conditions or process. The conditions and extent of storage and use of material are outside of our control and within the control of the possessor or user. Consequently it is the responsibility of the possessor or user to satisfy themselves as to the completeness of such information and the suitability of the material for their own particular circumstances, conditions or use.
