SAFETY DATA SHEET

(REACH regulation (EC) n° 1907/2006 - n° 2020/878)

SECTION 1 : IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier

Product name : SCOOTER EXPERT 4T 10W40 MB Product code : 57701

1.2. Relevant identified uses of the substance or mixture and uses advised against

4-stroke engine lubricant

1.3. Details of the supplier of the safety data sheet

Registered company name : MOTUL Address : 119, Boulevard Felix Faure. 93300 AUBERVILLIERS CEDEX FRANCE Telephone : 33.1.48.11.70.00. Fax: 33.1.48.33.28.79. Telex: . Email : motul_hse@motul.fr

1.4. Emergency telephone number : +44 (0) 1235 239 670.

Association/Organisation : CARECHEM 24/7 NCEC..

Other emergency numbers

UNITED STATES: 001 866 928 0789 / CANADA: 001 800 579 7421 / MEXICO : +52 55 5004 8763 / MIDDLE EAST - AFRICA : +44 1235 239671

BRAZIL : +55 11 3197 5891 / COLOMBIA : +57 601 508 7337 / ARGENTINA : +54 11 5984 3690 / CHILE : +562 2582 9336 Ireland : +353 1 8092566

24 hours a day, 7 days a week

SECTION 2 : HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

In compliance with EC regulation No. 1272/2008 and its amendments.

This mixture does not present a physical hazard. Refer to the recommendations regarding the other products present on the site. This mixture does not present a health hazard with the exception of possible occupational exposure thresholds (see paragraphs 3 and 8).

This mixture does not present an environmental hazard. No known or foreseeable environmental damage under standard conditions of use.

2.2. Label elements

In compliance with EC regulation No. 1272/2008 and its amendments.

No labelling requirements for this mixture.

2.3. Other hazards

The mixture does not contain substances classified as 'Substances of Very High Concern' (SVHC) >= 0.1% published by the European CHemicals Agency (ECHA) under article 57 of REACH: http://echa.europa.eu/fr/candidate-list-table

The mixture fulfils neither the PBT nor the vPvB criteria for mixtures in accordance with annexe XIII of the REACH regulations EC 1907/2006. The mixture does not contain substances> = 0.1% with endocrine disrupting properties in accordance with the criteria of the Delegated Regulation (EU) 2017/2100 of the Commission or Regulation (EU) 2018/605 of the Commission.

SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

3.2. Mixtures

Composition :

No data available.

SECTION 6 : ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Consult the safety measures listed under headings 7 and 8.

Spilled product may make surfaces slippery.

For first aid worker

First aid workers will be equipped with suitable personal protective equipment (See section 8).

6.2. Environmental precautions

Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatomaceous earth in drums for waste disposal.

Prevent any material from entering drains or waterways.

6.3. Methods and material for containment and cleaning up

Clean preferably with a detergent, do not use solvents.

6.4. Reference to other sections

No data available.

SECTION 7 : HANDLING AND STORAGE

Requirements relating to storage premises apply to all facilities where the mixture is handled.

7.1. Precautions for safe handling

Always wash hands after handling.

Do not swallow

Do not get in eyes, on skin, or on clothing.

Fire prevention :

Prevent access by unauthorised personnel.

Take precautionary measures against static discharges by bonding and grounding equipment.

No smoking.

Recommended equipment and procedures :

For personal protection, see section 8.

Observe precautions stated on label and also industrial safety regulations.

Ensure good ventilation at the workplace

Prohibited equipment and procedures :

No smoking, eating or drinking in areas where the mixture is used.

Do not breathe fumes, vapour, spray.

7.2. Conditions for safe storage, including any incompatibilities

Store between 5° C and 40° C in a dry, well ventilated place.

Only use hydrocarbon-resistant containers, joints and pipes.

Storage

Keep out of reach of children.

Packaging

Always keep in packaging made of an identical material to the original.

7.3. Specific end use(s)

No data available.

SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

No data available.

8.2. Exposure controls

Appropriate engineering controls

Ensure adequate ventilation, if possible with extractor fans at work posts and appropriate general extraction. Personnel shall wear regularly laundered overalls.

Personal protection measures, such as personal protective equipment

Use personal protective equipment that is clean and has been properly maintained.

Store personal protective equipment in a clean place, away from the work area.

Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.

- Eye / face protection

Avoid contact with eyes.

Use eye protectors designed to protect against liquid splashes

Before handling, wear safety goggles in accordance with standard EN166.

- Hand protection

C

Wear suitable protective gloves in the event of prolonged or repeated skin contact.

Type of gloves	recommended :
Glove	0.38 mm
thickness:	
Break-through	> 480 mn
time:	

- Body protection

Work clothing worn by personnel shall be laundered regularly.

After contact with the product, all parts of the body that have been soiled must be washed.

- Respiratory protection

Breathing apparatus only when aerosol or spray are formed.

SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

5.1. Information on basic physical and chemical properties	5	
Physical state		
Physical state :	Fluid liquid.	
Colour		
Color:	Amber	
Odour		
Odour threshold :	Not stated.	
Melting point		
Melting point/melting range :	Not relevant.	
Freezing point		
Freezing point / Freezing range :	Not stated.	
Boiling point or initial boiling point and boiling range		
Boiling point/boiling range :	Not relevant.	
Flammability		
Flammability (solid, gas) :	Not stated.	
Lower and upper explosion limit		
Explosive properties, lower explosivity limit (%) :	Not stated.	
Explosive properties, upper explosivity limit (%) :	Not stated.	
Flash point		
Flash Point Interval :	FP > 100°C.	
Auto-ignition temperature		
Self-ignition temperature :	Not relevant.	
Decomposition temperature		
Decomposition point/decomposition range :	Not relevant.	
pH		
pH (aqueous solution) :	Not stated.	
pH:	Not relevant.	
Kinematic viscosity		
Viscosity :	102.9 mm²/s à 40°C	
> Solubility		
Water solubility :	Insoluble.	
Fat solubility :	Not stated.	
Partition coefficient n-octanol/water (log value)		
Partition coefficient: n-octanol/water :	Not stated.	
Vapour pressure		
Vapour pressure (50°C) :	Not relevant.	
Density and/or relative density		
Density :	< 1	
Relative vapour density		

役 Relative vapour density

SAFETY DATA SHEET	(REGULATION (EC) n°	1907/2006 - REACH)
SCOOTER EXPERT 4T	10W40 MB - 57701	

Vapour density :

9.2. Other information

No data available.

9.2.1. Information with regard to physical hazard classes

No data available.

9.2.2. Other safety characteristics

No data available.

SECTION 10 : STABILITY AND REACTIVITY

10.1. Reactivity

No data available.

10.2. Chemical stability

This mixture is stable under the recommended handling and storage conditions in section 7.

10.3. Possibility of hazardous reactions

No data available.

10.4. Conditions to avoid

Keep away from heat and from sources of ignition

Take precautionary measures against static discharges.

10.5. Incompatible materials

Strong oxidants

Acids

10.6. Hazardous decomposition products

- The thermal decomposition may release/form :
- carbon monoxide (CO)
- carbon dioxide (CO2)

SECTION 11 : TOXICOLOGICAL INFORMATION

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

No data available. 11.1.1. Substances

Acute toxicity :

LUBRICATING OILS (PETROLEUM), C20-50, HYDROTREATED NEUTRAL OIL-BASED (CAS: 72623-87-1)		
Oral route :	LD50 > 5000 mg/kg	
	Species : Rat	
	OCDE Ligne directrice 401 (Toxicité aiguë par voie orale)	
Dermal route :	2,000 < LD50 <= 5000 mg/kg	
	Species : Rabbit	
	OCDE Ligne directrice 402 (Toxicité aiguë par voie cutanée)	
Inhalation route (Dusts/mist) :	LC50 = 5.53 mg/l	
	Species : Rat	
	OCDE Ligne directrice 403 (Toxicité aiguë par inhalation)	
	Duration of exposure : 4 h	

11.1.2. Mixture

Skin corrosion/skin irritation :

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non allergic contact dermatitis and absorption through the skin.

Not stated.

Serious damage to eyes/eye irritation :

Mild eye irritation

Aspiration hazard :

"Inhalation of vapours may cause irritation of the respiratory system in very susceptible persons." May cause lung damage if swallowed

11.2. Information on other hazards

S	ECTION 12 : ECOLOGICAL INFORMAT	ION		
	12.1. Toxicity			
)	12.1.1. Substances			
	LUBRICATING OILS (PETROLEUM), C20	-50, HYDROTREATED NEUTRAL OIL-BASED (CAS: 72623-87-1)		
	Fish toxicity :	LC50 > 100 mg/l		
		Duration of exposure : 96 h		
		OCDE Ligne directrice 203 (Poisson, essai de toxicité aiguë)		
	Crustacean toxicity :	EC50 > 10000 mg/l		
		Duration of exposure : 48 h		
		OCDE Ligne directrice 202 (Daphnia sp., essai d'immobilisation immédiate)		
		NOEC = 10 mg/l		
		Duration of exposure : 21 jours		
		OCDE Ligne directrice 211 (Daphnia magna, essai de reproduction)		
	Algae toxicity :	ECr50 >= 100 mg/l		
	Algae lonicity .	Duration of exposure : 72 h		
		OCDE Ligne directrice 201 (Algues, Essai d'inhibition de la croissance)		
	40.4.0 Minteres			
	12.1.2. Mixtures No aquatic toxicity data available for the mix	xture		
	12.2. Persistence and degradability			
6	12.2.1. Substances			
3		(PETROLE) HYDROTRAITÉS (CAS: 64742-54-7)		
	Biodegradability :	no degradability data is available, the substance is considered as not		
		degrading quickly.		
		-50, HYDROTREATED NEUTRAL OIL-BASED (CAS: 72623-87-1)		
	Biodegradability :	Non-rapidly degradable.		
	Biodegradability :	EATED HEAVY PARAFFINIC (CAS: 64742-54-7) no degradability data is available, the substance is considered as not		
	Diouogradability .	degrading quickly.		
2	12.3. Bioaccumulative potential No data available.			
	12.4. Mobility in soil			
	Not very mobile in soil. The product is insoluble in water and will spread on the surface			
	12.5. Results of PBT and vPvB assessment			
	No data available.			
	12.6. Endocrine disrupting properties			
	No data available.			
2	12.7. Other adverse effects			
	Do not dispose of the product in the natural environment, effluents or surface waters.			
2				
WGK 1 : Slightly hazardous for water.				
S	CTION 13 : DISPOSAL CONSIDERATIONS			
	Proper waste management of the mixture and/or its container must be determined in accordance with Directive 2008/98/EC.			
	13.1. Waste treatment methods			
	Do not pour into drains or waterways.			
	Waste :			
	-	ndangering human health, without harming the environment and, in particular without risk to water, a		
	soil, plants or animals. Recycle or dispose of waste in compliance v	with current legislation, preferably via a certified collector or company.		
		h waste, do not dispose of waste into the environment.		
	Soiled packaging :	•		

Soiled packaging :

Empty container completely. Keep label(s) on container. Give to a certified disposal contractor.

SECTION 14 : TRANSPORT INFORMATION

Exempt from transport classification and labelling.

14.1. UN number or ID number

14.2. UN proper shipping name

14.3. Transport hazard class(es)

-

14.4. Packing group

14.5. Environmental hazards

-

14.6. Special precautions for user

-

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Classification and labelling information included in section 2:

- The following regulations have been used:
- EU Regulation No. 1272/2008 amended by EU Regulation No. 2021/643 (ATP 16)
- EU Regulation No. 1272/2008 amended by EU Regulation No. 2021/849 (ATP 17)
- Container information:
 - No data available.
- Particular provisions :
 - No data available.

- German regulations concerning the classification of hazards for water (WGK, AwSV vom 18/04/2017, KBws) :

WGK 1 : Slightly hazardous for water.

15.2. Chemical safety assessment

Product is not classified health and environmental hazard. Exposure scenarios are not required.

SECTION 16 : OTHER INFORMATION

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.

The mixture must not be used for other uses than those specified in section 1 without having first obtained written handling instructions. It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations. The information in this safety data sheet must be regarded as a description of the safety requirements relating to the mixture and not as a guarantee of the properties thereof.

Wording of the phrases mentioned in section 3 :

May be fatal if swallowed and enters airways.

Abbreviations :

H304

LD50 : The dose of a test substance resulting in 50% lethality in a given time period.

- LC50 : The concentration of a test substance resulting in 50% lethality in a given period.
- EC50 : The effective concentration of substance that causes 50% of the maximum response.
- ECr50 : The effective concentration of substance that causes 50% reduction in growth rate.

NOEC : The concentration with no observed effect.

REACH : Registration, Evaluation, Authorization and Restriction of Chemical Substances.

ATE : Acute Toxicity Estimate

STEL : Short-term exposure limit

TWA : Time Weighted Averages

- TMP : French Occupational Illness table
- TLV : Threshold Limit Value (exposure)
- AEV : Average Exposure Value.
- ADR : European agreement concerning the international carriage of dangerous goods by Road.

IMDG : International Maritime Dangerous Goods.

IATA : International Air Transport Association.

ICAO : International Civil Aviation Organisation

RID : Regulations concerning the International carriage of Dangerous goods by rail.

WGK : Wassergefahrdungsklasse (Water Hazard Class).

PBT: Persistent, bioaccumulable and toxic.

vPvB : Very persistent, very bioaccumulable.

SVHC : Substances of very high concern.
